Hi,

I was a crew mate on Warrington from 1970 until the end. I'm Dave Breiner and was an FTG3. My berth was forward of the mess and down one deck. Battle station was the plotting room [next to the scullery]. Stood watch on the bridge and later in after steering. Good friends included Earl [Squirrel]Robinson and Carlos Santos. I was fascinated to visit this site.

Lt,

In the picture, "Tow Line Watch", I recognize Carlos Santos[front], Charles (?) Wolford{2nd}, gunner's mate (3rd)Steve Lemke {4th} .

Hope that helps.

Dave
